Summary

I am a dynamic graduate of Civil Engineering with kin interest in Engineering of the environment for sustainable development. I had had vertically and horizontally integrated trainings on issues concerning renewable energy, wastage management, Project monitoring and evaluation and non –state actors' participation in development plan.

During my youth service year, I worked with notable consulting firms on adhoc basis on major national assignments. To mention but a few, in April 2011, I worked for African Development Solutions in Kastina (owned and managed by Professor Osita Ogbu, former Economic Adviser to President Obasanjo) to monitor and evaluate all the MDG's-Conditional Scheme Grant projects located in kastina State. Also in September to October, the same year, I worked for Machi Consulting Limited, in Abia and Cross River State in assessing all the World Bank's Poverty Reduction Projects Managed by National Planning Commission. In addition, as part of my primary assignment during my service year I was an assistant lecturer in Department of Civil Engineering at Hassan Usman Katsina Polytechnic (HUK), Kastina State.

These trainings and experiences have also placed me at the cutting-edge of development issues, making me fitting to research and practical activities in Engineering and development issues around Nigeria. I am currently a PhD student and lecturer II in the Department of Civil Engineering University of Nigeria, Nsukka.
